# DREAMS

---

- New year's day eve,  
the king wanted to see,  
how his people celebrated,  
disguised he went to the affluent,  
they drinking, dancing and making merry.

He got fed up and dismayed,  
went to see how poor people fared,  
no fun there, no frolicking, not even lights,  
they all slept, starving with no food.

- A light came out of a half closed door,
- the king peeped in and found,  
an old man singing a sad song,  
a young lady with her hair cut, dancing  
a thin young man playing a drum,  
The king got curious and went inside.

- Asked them, “Why the sad song?”  
The old man said, “Because of my foolishness,  
I dreamt that the king visited my hut  
to celebrate the new year, no food, no money.”
- To buy food, the daughter sold her hair,  
His son wanted to ask the king,  
To give him a writer’s job in the palace.  
They all waited, food ready for the king to come  
Till late night, king did not turn up  
Became sad and started singing the sad song.

The king did not say anything,  
Ate the food and left the place,  
The next day he announced for the job  
Of a writer for the palace,  
Around five hundred people applied,  
Gave a test to shortlist one candidate.

The test was an allegory, 'an old man  
Singing a sad song, a girl with her hair cut,  
Dancing and a young man playing a drum,  
What was it all about?'

- Only the old man's son could write the right answer,  
He got the job and his family was rescued from poverty.

We all should have dreams about our life  
Believe that the dream would come true,  
Act with full faith, verve and conviction,  
Then our dream would come pursuing us  
May your dreams come true, and materialise.

# Time and money

- Most precious things in life,  
Save as much as we can,  
Never waste or misuse them,  
Assets we should create,  
Structure time most fruitfully,  
Never spend or lend unnecessarily,  
Make their optimum and maximum use.  
Our wants are too many  
Needs are relatively few  
We should balance our needs and wants  
Spending time and money only for  
Urgent needs and dire necessity.

# Niagara Syndrome

- On a sunny, breezy evening,  
We are rowing a boat on a calm river,  
Quite aimlessly, suddenly a waterfall comes  
And we are about to fall into it unaware.
- This is Niagara syndrome, unexpected disaster,  
To avert such a tragedy from our lives  
Our wants and needs must be balanced  
Giving priorities to necessities of life.

## The true riches of life

Sufficient money, self-discipline,  
Open mind, freedom from fears,  
Hope of achievement, capacity for faith  
Harmony with other people, good health,  
Willingness to share with others,  
A job or trade we love to do creatively,  
Discerning the motives of other people,  
And a positive mind and outlook  
Are the true riches to have and dream in life.

Not too much or too little of anything,  
Help others and do maximum good,  
See whether something is good, affordable  
And help us to reach our purpose.

# Law of cosmic habit force

Going extra-mile in all what we do,  
Making it a pattern of our living,  
And course of our way of thinking,  
Fill our life with love, joy, peace, patience, kindness,  
Goodness, faithfulness, humility, self-control  
And have life in its fullness.

Avoid, immorality, filthiness, indecency, idolatry and witchcraft,  
jealousy, anger, envy, drunkenness, and being too ambitious.

- Eden is closed behind us,  
We can't go back, now we are in Paradise,  
On the way to heaven,  
Do Karmam, with Dharmam to make Artham  
without Kamam to reach Moksham.
- Have a life, without agony, pain or trauma,  
Mellowed and sweet, fortified to make  
Our dreams and goals to come true,  
Life; sweet without agony and pain  
And with bliss, joy and happiness.

Have a great dream about future,  
Our greatest desire, passion  
Our goal in life and make an extra-step  
With verve and conviction,  
Gradually you will reach your goal  
And your dream will come true.

Go straight, not right nor left  
With the head light of truth on  
Dim the light for others also to see,  
We all have similar goals  
But, our destinations are different.

Do only right, not wrong  
Harm no one, help all  
Let your light shine for others  
That they don't trespass  
And reach their goals too.

The song you wrote, sing for others,  
Let them hear rather than see,  
Your last breath may be now,  
But never pollute it for others  
All should have enough to eat and drink.

Water, air, light, space we have plenty  
Preserve them for others, never waste any  
Eat only what is needed, drink full,  
Breathe the maximum air  
To keep the life to go on, take medicine,  
Eat fruits, grains, grams, herbs and shrubs.

Plan things early, seeking the truth asking,  
Why, what, when, where, which and whose?  
Smart, quickest, accurate way,  
Avoiding collision and clashes in life,  
Procrastination and indifference.  
Never back bite, side track, or disrupt,  
Discourage, criticise or find fault,  
So that we can all co-exist in peace.

# All is always for better and the best is yet to come

There is no coincidence.

Everything happens for a reason.

Now is the best and opportune time.

Ask always whether something is good,

Affordable and helpful to reach our goal.
